We are currently recruiting a **Junior Full Stack Developer** to work in our Luxembourg office. This is a great entry level position with opportunities for professional growth and development.

## Your Role?

We are creating our team with skilled, motivated, open-minded people: we are therefore looking for a Junior Full Stack Developer, interested in shaping the future Human Resources Tools, who will actively contribute to the set-up, on-going management and evolution of Taleo Luxembourg.

Key responsibilities will include:

- Develop and test various functions and web pages for Human Resources Tools
- Design and purpose solutions for HR Tools (development, parameterization, testing, defect management, release management)
- Assist in integration, QA, and performance tests
- Formalize and keep up-to-date enough documentation related to the project
- Support the validation / formalization and implementation of procedures and processes, based on the available policies and documents

# Junior Full Stack Developer

## 🎯 Qualification?

- Degree in Computer Science, Information Systems or a related field
- Mandatory: PHP & SQL
- Good understanding of modern Web/API Application Design, Infrastructure and Architecture
- Good understanding of security aspects (Authentication and Authorization, Cryptography, Session ID) and data management (SQL)
- Must have experience with DevOps culture and tools such as Notepad++, SQL Workbench
- Experience in PHP / SQL / HTML / CSS / JavaScript, any other language will be considered as an asset
- Ability to communicate your vision and innovative thinking in order to deliver the best product and service
- Strong analytical and problem-solving skills while paying attention to details
- Comfortable within a start-up environment, with a demonstrated entrepreneurial and strong team spirit
- Working proficiency (both written and verbal) in French and English

## Interested?

If you are interested in working in a start-up environment, facing new challenges everyday together with a highly motivated team, please send by email your application with detailed curriculum vitae to [marine.causse@taleo-consulting.com](mailto:marine.causse@taleo-consulting.com) – reference “Junior Full Stack Developer”
