

Job Offer : Senior Technical Lead (m/f)

Location: Luxembourg

Availability: ASAP

About us:

Taleo is an advisory firm specialized in financial services acting in Luxembourg, Paris, Amsterdam Switzerland and Brussels. Our financial expertise combined with our specialization in Risk Management, Compliance, Governance and Financial Information Systems allow us to deliver best practices as well as tailored and innovative solutions to our clients.

Mission:

As a Technical Lead your mission will be to :

- ⊕ Produce detailed designs, formalize and implement technical solutions for our projects related to the Fund Operations (Fund Admin, Transfer Agent), based on market standards and architectural good practices.
- ⊕ Provide guidance and support for approved, initiated projects.
- ⊕ Act as a technical reference for your projects' stakeholders, removing impediments and enabling the correct prosecution of project roadmaps.
- ⊕ Providing L2/3 support to business stakeholders.
- ⊕ Manage technical production incidents (coordinate, implement resolution).
- ⊕ Carry out release management tasks.
- ⊕ Understand, adapt and contribute to the innovation of target architectures.
- ⊕ Collaborate closely with the members of the Funds Solutions unit in Luxembourg, as well as with other teams such as the Architecture team in Geneva and development team in Pictet Technologies Luxembourg.
- ⊕ Proactively introduce and endorse good practices related to your projects' technology stack.
- ⊕ Contribute to a cross-fertilization environment, empowering your colleagues and leveraging on their individual skills

Required profile:

- ⊕ Good Fund Operations knowledge is an asset.
- ⊕ Minimum of 5 years' design and implementation experience in Java/JEE and related frameworks.
- ⊕ Experience working in an agile context (ideally within the SCRUM framework) as well as knowledge of low-code development platforms are considered a plus (e.g Mendix)
- ⊕ Proficiency with the Spring stack (Spring Framework, Spring Boot, Spring Batch) is mandatory.
- ⊕ Proficiency / admin experience with versioning systems (primarily GIT) is mandatory.
- ⊕ Strong software design competences are mandatory.
- ⊕ Strong data modelling skills are mandatory.
- ⊕ Good understanding of PL/SQL programming language is mandatory.
- ⊕ Strong REST services design competences are an asset.
- ⊕ Proficiency with CSS and Javascript frameworks (Bootstrap, Angular) is an asset.
- ⊕ Experience with cloud computing (primarily AWS, Terraform) is an asset

- 🎯 Demonstrable proficiency in modelling languages (e.g. UML) is an asset.
- 🎯 Experience with the Microservices architecture is a plus.
- 🎯 Experience with ETLs and/or batch processing frameworks is a plus.
- 🎯 Experience in the Multifond platform is a plus.
- 🎯 Excellent interpersonal skills in areas such as teamwork, facilitation and negotiations, with strong leadership skills.
- 🎯 Excellent analytical skills.
- 🎯 Excellent written and verbal communication skills.
- 🎯 Ability to work with developers on-site and in an outsourced environment.
- 🎯 Ability to understand the long-term ("big picture") and short-term perspectives of situations.
- 🎯 Languages : French & English
