

IT Solution Expert – Clinical Data Acquisition Systems

Location: Anderlecht/Brussel (Bruxelles)

Do you want to start an ambitious and challenging career?

Would you like to work in an exciting and fun environment?

Do you thrive in work environments that push you to be your best?

Taleo Consulting is a management consulting group with offices in Luxembourg, Paris, Brussels, Amsterdam, Geneva, Zurich, Barcelona, Singapore, and Lisbon.

As a young and growing company, we now count over 500 employees across our 9 international offices! Our activities are primarily focused in finance, life science, retail, and energy.

What will you do?

We believe that we grow as our people grow. Motivated professionals make a difference. Not just for themselves, but also for our customers.

We are looking for an enthusiastic **IT Solution Expert – Clinical Data Acquisition Systems** to join our team!

In this role, you will:

- Provide support and maintenance for UCB's primary clinical data acquisition system – ACQUIRE CLINICAL, which includes a suite of Medidata 15 products such as *iMedidata, Rave, and Coder*.
- Ensure the system's transition to Cloud Admin and Coder+ environments.
- Support and maintain TrialGrid, the tool used to check clinical study builds for ACQUIRE CLINICAL.
- Assess the impact of new Medidata product releases on availability, maintenance, security, and interfaces.
- Drive IT changes as needed, including updating computerized system validation documentation and performing IQ/OQ testing.
- Implement changes based on evolving user requirements and lead project management activities when necessary.
- Manage access control for specific user roles within ACQUIRE CLINICAL (granting and revoking access).

- Handle incident management in collaboration with Medidata and UCB subject matter experts.
- Support the periodic review of ACQUIRE CLINICAL and TrialGrid systems.

How do we imagine our future IT Solution Expert ?

You are a structured, analytical, and proactive professional with a strong understanding of clinical data systems and validation processes. You are comfortable managing both technical and organizational aspects of IT system support in a pharmaceutical environment.

Education:

- Bachelor's degree (minimum) in Computer Science or a related field.
-

Experience:

- Proven experience with Medidata products (*iMedidata, Cloud Admin, Rave, Coder*) is mandatory.
- Strong background in computerized system validation and computerized system testing.
- Experience with IT change management and access management is required.
- Knowledge of project management and incident management (ITIL) preferred.
- Experience with TrialGrid is a plus.
- 3+ years of experience in the pharmaceutical industry preferred.
- Understanding of Clinical Development processes is an advantage.

Soft skills:

- Fluent in English (spoken and written).
- Excellent technical writing skills.
- Strong team spirit and communication abilities.

Why should you join us?

You will be part of a talented and dynamic team! You will be able to benefit from career advancement and have the possibility to develop international and long-lasting work relationships.

If these words resonate with you and you identify with this description, send us your CV! We will be delighted to meet you.
