

Business Analyst & Developer – IT Client Reporting

Location: Brussels

Do you want to start an ambitious and challenging career?

Would you like to work in an exciting and fun environment?

Do you thrive in work environments that push you to be your best?

Taleo Consulting is a management consulting group with offices in Luxembourg, Paris, Brussels, Amsterdam, Geneva, Zurich, Barcelona, Singapore, and Lisbon.

As a young and growing company, we now count over 500 employees across our 9 international offices! Our activities are primarily focused in finance, life science, retail, and energy.

What will you do?

We believe that we grow as our people grow. Motivated professionals make a difference. Not just for themselves, but also for our customers.

We are looking for people who share our corporate values among our local and international networks and promote close relationships with our customers and internal teams. Taleo's success depends on the talent of its employees, therefore we are looking for an enthusiastic

Business Analyst & Developer – IT Client Reporting :

To ensure the successful blending of both asset managers, we are seeking a highly skilled Business Analyst & Developer with around 10 years experience to join the IT Client Reporting squad. The role will focus on SQL development and report design, supporting the delivery of high-quality client reporting solutions.

Contract: 6 months mission, with possibility of renewal

How do we imagine our future Business Analyst & Developer – IT Client Reporting ?

- Develop, maintain, and optimize stored procedures in SQL Server for client reporting purposes.
- Design and produce reports using various reporting and visualization tools, such as SAP Business Objects, Power BI, Crystal Reports, Tableau, etc.
- Work with SimCorp Coric reporting tools to implement accurate and efficient reporting solutions.
- Collaborate with business stakeholders to gather and document requirements for reporting needs.

- Analyze and validate data sources, ensuring data quality and consistency across reports.
- Provide technical support and troubleshooting for reporting solutions.
- Assist in improving reporting processes and automation to enhance efficiency. We hire great people and give them the playing field to become awesome!

Required Skills & Qualifications

- Strong experience in SQL development, including writing, debugging, and optimizing stored procedures.
- Hands-on experience with report design and visualization tools (SAP BO, Power BI, Tableau, Crystal Reports).
- Knowledge of SimCorp Coric or similar asset management reporting tools.
- Strong analytical and problem-solving skills with a focus on data accuracy.
- Experience as a Business Analyst in an asset management or finance environment.
- Fluent in English; additional languages a plus.
- Ability to work in a collaborative team environment and interact with stakeholders.

Rather than a diploma or extensive experience, it's your state of mind that will allow you to reach your potential and meet the target with Taleo!

Highly Appreciated:

- Detail-oriented, rigorous, and proactive.
- Strong communication skills to bridge business and IT teams.
- Adaptable to changing priorities in a fast-paced environment.

Why should you join us?

You will be part of a talented and dynamic team! You will be able to benefit from career advancement and have the possibility to develop international and long-lasting work relationships. If these words resonate with you and you identify with this description, send us your CV! We will be delighted to meet you.
