DATA ENGINEER

Location: Geneva (on site)

Are you ready to take your career to the next level?
Do you thrive in environments that challenge and inspire you?
Would you like to grow within a team that values both excellence and enjoyment at work?

Taleo Consulting is an international management consulting group with offices in **France, Luxembourg, Belgium, The Netherlands, Switzerland, Spain, Singapore, Portugal, and Italy**.

We've grown into a team of **450+ talented professionals** across **10 offices worldwide,** partnering with leading organizations in **Financial, Life Sciences, Retail,** and **Energy** - Sectors, to drive transformation and deliver lasting impact.

At Taleo, you'll find more than just a job. You'll join a community of ambitious consultants who share a passion for growth, innovation, and teamwork. Together, we create an environment where you can develop your skills, take on new challenges, and truly make a difference.

What Will You Do?
At Taleo Consulting, we believe that **our growth starts with our people**. When our consultants thrive, so do our clients.
Motivated, curious, and passionate professionals make a real impact, not only on their own careers but also on the success of the organizations they support.

We're looking for individuals who **embody our values** and help us foster strong, trust-based relationships with both our **clients** and our **teams across the globe**.
Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Data Engineer** to join our journey.

Your profile:

- At least 5 years of experience in managing on-premises databases, data integration, and ETL processes
- Strong expertise with Oracle SQL and PL/SQL. (Experience in query optimization is a plus)
- Strong expertise with Informatica ETL or equivalent.
- Experience with Control-M scheduler or equivalent.
- Experience with version control systems (e.g., GIT).

- Strong analytical and problem-solving skills.
- Knowledge of financial concepts such as positions, transactions, funds is a plus.
- Fluent in English and French, both oral and written.
- Must be resident of Switzerland or willing to relocate.

Your role:

- Collaborating with internal teams, including Finance and MANCO Oversight to support data analysis, monitoring, and commercial and financial reporting.
- Maintaining data pipelines and workflows for on-premises databases, including Oracle DB and other relational database systems.
- Writing and optimizing PL/SQL scripts to ensure efficient database operations.
- Managing and scheduling Control-M jobs to automate and streamline data processes.
- Implementing and maintaining ETL processes using Informatica or similar tools.
- Production support: troubleshooting issues, and optimizing queries for scalability and efficiency
- Ensuring data integrity, security, and compliance with organizational standards.

We attract top talent and empower them with the right environment to excel and drive collective success.

Why should you join us?

By joining Taleo, you'll become part of a **talented, international, and dynamic team**.

You'll benefit from **real career growth opportunities**, continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.

Share your CV and take the next step in your journey with Taleo
