Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Business Analyst** to join our journey.

Position Overview

We are looking for a Business Analyst with strong Dutch, good English, and a good command of French.

Ideal Start Date: Mid–end March

Mission Duration: Long-term mission (minimum 1 year)

Minimum Experience Required: 5 years

About the Role

Want to work with us to help the shift towards a more sustainable world?

Are you looking for a new challenge and want to contribute to the development of our banking services?

If drive, vision, and innovation are more than buzzwords for you, and if you strive to put customer needs at the heart of every decision; if you are proactive and delight in delivering impactful solutions for end users, you should be our new Business Analyst!

As a Business Analyst, you understand, translate, and communicate business needs while identifying opportunities for improvement. You work closely with stakeholders to understand, set up, and optimize business solutions. You also have a firm grasp of business strategy, operational processes, and technology required to develop these solutions.

Context

The Tribe **Invest & Financial Insurance** is responsible for the Invest offer distributed and commercialized by the bank.

We develop and maintain end-to-end solutions for our clients in the Invest domain and are currently facing important challenges to digitize and make our offer more accessible while ensuring compliance with regulations.

As a **Business Analyst**, you will be part of the Squad Portfolio Management Systems, which oversees the portfolio management application for clients in advisory or discretionary investment management.

Your responsibilities

As a Business Analyst, you will play a crucial role in the realization of new initiatives and solutions, working closely with a (Cluster) Product Owner or an Initiative Owner.

- Collaborate with Process Experts, Channel Managers, Product Owners/Specialists, UX Designers, and IT Architects.
- Estimate the potential value of initiatives.
- Collect, analyze, and document stakeholder needs and requirements.
- Support the (Cluster) Product Owner in defining Product Concepts and OKRs.
- Contribute to business case development and prioritize customer and user needs.
- Design and support solution delivery and value realization.
- Manage stakeholders and define acceptance criteria.
- Participate in Quarterly Agile Planning (QAP) and review meetings.
- Support backlog clarification and refinement.
- Ensure respect of Feature scope during development.

Highlight Your Strengths

To excel in this role, you should possess a combination of behavioral and business skills:

- **Adaptability:** Ability to deliver results in a fast-paced environment.
- **Analytical Ability:** Understand complex and diffuse problems and synthesize them into concrete proposals or actions.
- **Client-focused:** Collaborate effectively with stakeholders and share knowledge to drive business outcomes.
- **Result-oriented:** Prioritize customer and user needs and make informed decisions to drive results.
- **Communication Skills:** Communicate complex ideas effectively, both orally and in writing.
- **Team Player:** Work collaboratively and strive for continuous improvement.
- **Languages:** Fluent in English and at least one national language, with passive understanding of the other national language.

Why should you join us?

By joining Taleo, you'll become part of a **talented, international, and dynamic team**.

You'll benefit from **real career growth opportunities**, continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.
