

Data Engineer Databricks / Dataiku

Location: Brussels

Are you ready to take your career to the next level?

Do you thrive in environments that challenge and inspire you?

Would you like to grow within a team that values both excellence and enjoyment at work?

Taleo Consulting is an international management consulting group with offices in **France, Luxembourg, Belgium, The Netherlands, Switzerland, Spain, Singapore, Portugal, and Italy.**

We've grown into a team of **450+ talented professionals** across **10 offices worldwide**, partnering with leading organizations in **Financial, Life Sciences, Retail, and Energy** - Sectors, to drive transformation and deliver lasting impact.

At Taleo, you'll find more than just a job. You'll join a community of ambitious consultants who share a passion for growth, innovation, and teamwork. Together, we create an environment where you can develop your skills, take on new challenges, and truly make a difference.

What Will You Do?

At Taleo Consulting, we believe that **our growth starts with our people**. When our consultants thrive, so do our clients.

Motivated, curious, and passionate professionals make a real impact, not only on their own careers but also on the success of the organizations they support.

We're looking for individuals who **embody our values** and help us foster strong, trust-based relationships with both our **clients** and our **teams across the globe**.

Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Data Engineer Databricks / Dataiku** to join our journey.

Mission context

Our client is a major player in the **energy sector**, committed to supporting the transition toward a more sustainable and carbon-neutral future. As part of its ongoing digital transformation, the organization is modernizing its data landscape to enable advanced analytics and scalable data solutions.

In this context, new **Databricks and Dataiku platforms are being implemented on AWS**, with active migration projects from legacy and existing technologies (SAS, Sagemaker, BW/HANA, etc.).

To support this strategic initiative, we are looking for a **Databricks / Dataiku Data Engineer** to join the project team and contribute to the implementation and industrialization of the new data platforms.

Responsibilities

- Design, develop and maintain scalable data pipelines on the Databricks platform
- Manage data ingestion processes from various sources into the Databricks environment.
- Implement and optimize ETL (Extract, Transform, Load) processes to ensure efficient data transformation and integration.
- Ensure data quality, integrity, and security across all data pipelines.
- Monitor and troubleshoot data pipeline performance, implementing necessary maintenance and updates.
- Document data pipeline processes, technical specifications and **best practices**.
- Realize knowledge transfer towards the Data engineer team which will take over the responsibility to run the platform in the future
- You demonstrate and use your developer experience to develop and maintain complex data transformation steps using Dataiku under specific guidelines (dev vs automation node, use of Dataiku's low code recipes, etc.)

Required Skills

- Strong skills in SQL (and other relevant programming languages like Python) and in Datawarehouse / Lakehouse projects
- Proven expertise in Databricks, Dataiku and with AWS services
- Analytical mindset with attention to detail
- Strong communication and collaboration skills (within a Project team and with a Data engineer team)

Qualifications

- Bachelor's degree in Computer Science, Engineering, Mathematics, or a related field.
- Minimum 3 years of experience in SQL and Data warehousing
- Minimum 2 years of experience with Databricks

Languages

- Fluent in either Dutch or French
- Fluent in English

Location and period

- Brussels (minimum 2 days at the office)
- 03/2026 to 12/2026

Why should you join us?

By joining Taleo, you'll become part of a **talented, international, and dynamic team**. You'll benefit from **real career growth opportunities**, continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.

Share your CV and take the next step in your journey with Taleo
