

Data Scientist

Location: Brussels

Are you ready to take your career to the next level?

Do you thrive in environments that challenge and inspire you?

Would you like to grow within a team that values both excellence and enjoyment at work?

Taleo Consulting is an international management consulting group with offices in **France, Luxembourg, Belgium, The Netherlands, Switzerland, Spain, Singapore, Portugal, and Italy.**

We've grown into a team of **450+ talented professionals** across **10 offices worldwide**, partnering with leading organizations in **Financial, Life Sciences, Retail, and Energy** - Sectors, to drive transformation and deliver lasting impact.

At Taleo, you'll find more than just a job. You'll join a community of ambitious consultants who share a passion for growth, innovation, and teamwork. Together, we create an environment where you can develop your skills, take on new challenges, and truly make a difference.

What Will You Do?

At Taleo Consulting, we believe that **our growth starts with our people**. When our consultants thrive, so do our clients.

Motivated, curious, and passionate professionals make a real impact, not only on their own careers but also on the success of the organizations they support.

We're looking for individuals who **embody our values** and help us foster strong, trust-based relationships with both our **clients** and our **teams across the globe**.

Our success is built on the **talent, collaboration, and commitment** of our people and we're now looking for a **Data Scientist** to join our journey.

As a **Data Scientist** you will contribute to a wide range of high-impact projects involving:

- **Security analytics** to enhance passenger and infrastructure safety
- **Punctuality optimization** through predictive modeling and real-time data
- **Energy consumption analysis** to support our sustainability goals
- **Generative AI applications** to explore new frontiers in operational efficiency
- **Strategic models development**

Your Responsibilities:

- **Design and implementation** of advanced data science solutions using **machine learning, deep learning,** and **GenAI** techniques
- Collaborate with cross-functional teams including operations, IT, and sustainability
- Translate complex business challenges into **data-driven solutions**
- Ensure best practices in **model development, validation,** and **deployment**
- Drive the adoption of **cutting-edge tools** and methodologies within the team

Profile:

- Degree in Data Science, Computer Science, Statistics or AI field
- **5 + years** or more of experience in data science, with a strong track record in industrial applications
- Proven expertise in **cloud services** for industrialized data analytics project.
- Fluent in **English**
- You can **come to the office** on Tuesday and Thursday

Evaluation Criteria:

- Knowledge of required **programming languages**
- Knowledge of the different data science **techniques**
- Level of experience bringing **ML** and **AI models** to production
- Capacity to translate complex business problems into actionable **solutions based on Advanced Analytics techniques**
- Communication and presentation skills

Why should you join us?

By joining Taleo, you'll become part of a **talented, international, and dynamic team.** You'll benefit from **real career growth opportunities,** continuous learning, and the chance to build **long-lasting relationships** across borders and industries.

If you recognize yourself in this description and are ready to grow with a company that values ambition, collaboration, and excellence, let's connect.

Share your CV and take the next step in your journey with Taleo
